## How to add City of Milwaukee GIS services to Esri ArcGIS.

1. In ArcCatalog, expand **GIS Servers** in the Catalog Tree and double-click **Add ArcGIS Server**. This will open the **Add GIS Server** window.

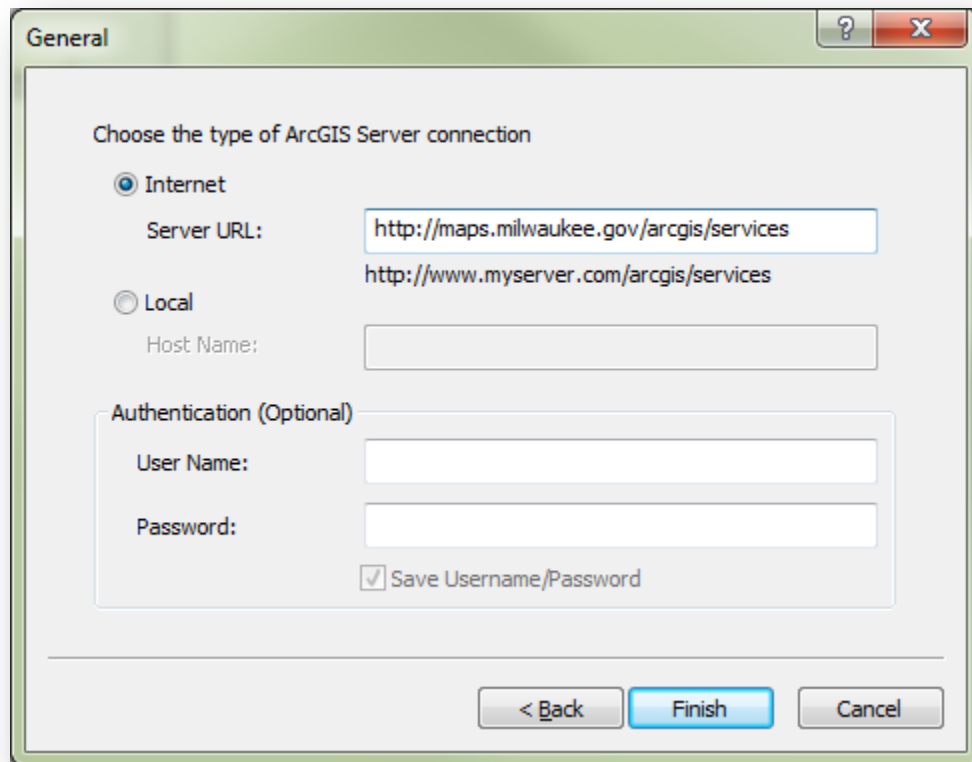

2. From the **Add GIS Server** window, select **Use GIS Services** and click **Next**.

3. Type **http://maps.milwaukee.gov/arcgis/services** as the **Server URL** for an Internet connection and click **Finish**.

4. You can now see maps.milwaukee.gov listed under your GIS Servers. Double-click to expand the connection and see the available services.
